SUBJECT INDEX

Acetylene reduction activity
Dinitrogen fixation in wheat and characterization of associative diazotrophs 9
Agaricales
Progress of applied mycological research in Taiwan 373
Agrobacterium
Genetic transformation of plants 79
Air pollution
Effects of air pollutants on the growth and functioning of roots 429
Alfalfa grass
Diol esters-A family of potential plant growth regulators 393
Algae
Certain new taxa belonging to *Aulosira* Kirchner, *Scytonema* Ag. and *Calothrix* Ag.-the blue-green algae from crop fields of Karnataka State, India 401
Algal composition
Ecological studies on the rivers of Andhra Pradesh with special reference to water quality and pollution 495
Allergy
Circadian periodicities of some airborne pollen at Gulbarga, India 407
Allium cepa root meristems
Clastogenic and turbagenic effects of organophosphorus pesticides on *Allium cepa* root meristems 303
Amino acids
Nectar types in Indian plants 41
Phytochemical evaluation of *Cassia obtusifolia* L. and *Cassia tora* L. 321
Anatomy
Anatomical studies in the flower of some genera in the Geraniales 327
α-and β-conidia
Dwiroopa, a new genus of the Coelomycetes 191
Anthroquinones
Phytochemical evaluation of *Cassia obtusifolia* L. and *Cassia tora* L. 321
Aquatic pollution
Effect of aquatic pollution on the mineral accumulation in water hyacinth 37
Arisaema
Ontogeny of palmately compound leaves in angiosperms. 3. *Arisaema* Spp. 475
Associative diazotrophs
Dinitrogen fixation in wheat and characterization of associative diazotrophs 9
Asteraceae
Embryological investigations in *Centipeda minima* (Asteraceae) 141
Azolla
Comparative effects of *Azolla* and blue-green algae in combination with chemical N fertilizer on rice crop 147
Bacillus
Dinitrogen fixation in wheat and characterization of associative diazotrophs 9
Bacteria
Ecological studies on the rivers of Andhra Pradesh with special reference to water quality and pollution 495
Bamboo forest
Progress of applied mycological research in Taiwan 373
Bauhinia
Distribution pattern of phenolic constituents in species of *Bauhinia* Linn. and its taxonomic significance 1
Bignonia illicium
Nectaries in *Bignonia illicium* L.—Ontogeny, structure and functions 135
Biochemical characteristics
Ecological studies on the rivers of Andhra Pradesh with special reference to water quality and pollution 495
Biomass
Comparative effects of *Azolla* and blue-green algae in combination with chemical N fertilizer on rice crop 147
Structure and function of the Central Himalayan oak forests 159
Chlorophyll content in different plant species of Nagamalai hills and its significance on biomass production 471
Biotic stress
Structure and function of the Central Himalayan oak forests 159
Blue-green algae
Comparative effects of *Azolla* and blue-green algae in combination with chemical N fertilizer on rice crop 147
Bryophyta
Porella platyphylla (L.) Pfeiff. in India and scanning electron microscope details of spores 17
Calcareous/non-calcareous myxomycetes
Distribution and ecology of myxomycetes in India 289

Carbohydrate content
Growth response of *Vigna sinensis* to SO_2 pollution 419
Cassia obtusifolia
Phytochemical evaluation of *Cassia obtusifolia* L. and *Cassia tora* L. 321
Cassia tora
Phytochemical evaluation of *Cassia obtusifolia* L. and *Cassia tora* L. 321
Catharanthus
Immobilization of cells and protoplasts of *Catharanthus roseus* 413
Cells
Immobilization of cells and protoplasts of *Catharanthus roseus* 413
Centipeda minima
Embryological investigations in *Centipeda minima* (Asteraceae) 141
Central Himalaya
Structure and function of the Central Himalayan oak forests 159
Chemical composition
Ecological studies on the rivers of Andhra Pradesh with special reference to water quality and pollution 495
Chemotaxonomy
Distribution pattern of phenolic constituents in species of *Bauhinia* Linn. and its taxonomic significance 1
Chlorophyll content
Chlorophyll content in different plant species of Nagamalai hills and its significance on biomass production 471
Chlorophyll mutants
Azide mutagenesis in rice 205
Circadian periodicity
Circadian periodicities of some airborne pollen at Gulbarga, India 407
Clastogenicity
Clastogenic and turbagenic effects of organophosphorus pesticides on *Allium cepa* root meristems 303
Climatic preferences
Distribution and ecology of myxomycetes in India 289
Climax vegetation
Structure and function of the Central Himalayan oak forests 159
Clusiaceae
Scanning electron microscopic studies on the pollen of some Clusiaceae 217
Cluster bean
Effect of saline waters on drought affected cluster bean 531
Coelomycetes
Dwiroopa, a new genus of the Coelomycetes 191
Dwiroopella, a new genus of the Coelomycetes 199
Coronophorales
The progress and status of mycology in India 379
Cowpea
The influence of *in vitro* substrates on pathogenicity of *Rhizoctonia solani* and responses to fungitoxicants used for disease control 273
Culture collection
The progress and status of mycology in India 379
Cyanophyta
Certain new taxa belonging to *Aulosira* Kirchner, *Scytonema* Ag. and *Calothrix* Ag.-the blue-green algae from crop fields of Karnataka State, India 401

Diaporthacea
The progress and status of mycology in India 379
Diatrypaceae
The progress and status of mycology in India 379
Dinitrogen
Dinitrogen fixation in wheat and characterization of associative diazotrophs 9
Diol esters
Diol esters-A family of potential plant growth regulators 393
Diversity
Population structure of tree species in forests as an indicator of regeneration and future stability 443
Drought
Effect of saline waters on drought affected cluster bean 531
Dual culture
Comparative effects of *Azolla* and blue-green algae in combination with chemical N fertilizer on rice crop 147
Dwiroopa
Dwiroopa, a new genus of the Coelomycetes 191
Dwiroopa ramya
Dwiroopa, a new genus of the Coelomycetes 191
Dwiroopella
Dwiroopella, a new genus of the Coelomycetes 199
Dwiroopella sundara
Dwiroopella, a new genus of the Coelomycetes 199

Eastern Himalaya
Genus *Ramaria* in the eastern Himalaya: Subgenus *Laeticolora*-II 519
Echinochloa
Comparative embryology of *Echinochloa colonum* and *Echinochloa crusgalli* (Poaceae) 71
Ecology
Distribution and ecology of myxomycetes in India 289

Ecological studies on the rivers of Andhra Pradesh with special reference to water quality and pollution 495
Ectoteichodes
Physiology of foliar uptake of inorganic nutrients 457
Effluents
Effect of aquatic pollution on the mineral accumulation in water hyacinth 37
Embryogeny
Contribution to the embryology of *Perilla ocimoides* Linn 311
Embryo
Gametogenesis, integuments initiation and embryogeny in three species of Habenaria (Orchidaceae, Orchideae) 487
Embryology
Comparative embryology of *Echinochloa colonum* and *Echinochloa crusgalli* (Poaceae) 71
Embryological investigations in *Centipeda minima* (Asteraceae) 141
Endogonaceae
Progress of applied mycological research in Taiwan 373
Environmental factors
Seed germination of *Quercus leucotrichophora* A. Camus. ex. Bahadur and *Pinus roxburghii* Sarg. on certain single factor environmental gradients 63
Epidermis
Contribution to the leaf anatomy of the genus *Pennisetum* Rich 113
Evolution
Evolution of floral nectary in Lamiaceae 281
Extrafloral nectaries
Nectaries in *Bignonia illicium* L.—Ontogeny, structure and functions 135

Floral anatomy
The floral anatomy of *Gloriosa superba* L. and *Tricyrtis pilosa* Wall. (Liliaceae) 233
Floral nectary
Evolution of floral nectary in Lamiaceae 281
Floristic studies
Floristic studies and distribution of fungi in Sri Lanka 375
Flower
Anatomical studies in the flower of some genera in the Geraniales 327
Foliar uptake
Physiology of foliar uptake of inorganic nutrients 457
Foreword 333
Fungal flora
Progress of applied mycological research in Taiwan 373
Floristic studies and distribution of fungi in Sri Lanka 375
Fungi
Mycological research in Singapore 335
Fungitoxicants
The influence of *in vitro* substrates on pathogenicity of *Rhizoctonia solani* and responses to fungitoxicants used for disease control 273

Gametogenesis
Contribution to the embryology of *Perilla ocimoides* Linn 311
Gametogenesis, integuments initiation and embryogeny in three species of Habenaria (Orchidaceae, Orchideae) 487
Gangliar conidia
Dwiroopella, a new genus of the Coelomycetes 199
Gene transfer
Genetic transformation of plants 79
Genotype
Somatic embryogenesis in angiosperm cell tissue and organ cultures 247
Geraniales
Anatomical studies in the flower of some genera in the Geraniales 327
Glomus spp.
Vesicular-arbuscular mycorrhizal fungal sporocarps associated with *Pennisetum pedicillatum* 153
Gloriosa
The floral anatomy of *Gloriosa superba* L. and *Tricyrtis pilosa* Wall. (Liliaceae) 233
Gossypium spp.
Hydrolytic enzymes in cotton ovules during early development 49
Gramineae
Contribution to the leaf anatomy of the genus *Pennisetum* Rich 113
Growth hormones
Sexual polymorphism in the genus *Morus* L. 315
Growth substances
Effect of some growth regulators on the leaf architecture of *Tagetes erecta* L. 509

Habenaria edgeworthii
Gametogenesis, integuments initiation and embryogeny in three species of Habenaria (Orchidaceae, Orchideae) 487
Habenaria elisabethae
Gametogenesis, integuments initiation and embryogeny in three species of Habenaria (Orchidaceae, Orchideae) 487
Habenaria galeandra
Gametogenesis, integuments initiation and embryogeny in three species of Habenaria (Orchidaceae, Orchideae) 487
Hepaticae
Porella platyphylla (L.) Pfeiff. in India and scanning electron microscope details of spores 17

Hydrolases
Hydrolytic enzymes in cotton ovules during early development 49
Hyphomycetes
The progress and status of mycology in India 379

Immobilization
Immobilization of cells and protoplasts of *Catharanthus roseus* 413
Indian lichens
Macrolichen taxa of Teloschistaceae from India 227
Indonesian mycology
A panoramic review of the present state of Indonesian mycology 357
Inorganic elements
Effect of aquatic pollution on the mineral accumulation in water hyacinth 37
Inorganic nutrients
Physiology of foliar uptake of inorganic nutrients 457
Integuments initiation
Gametogenesis, integuments initiation and embryogeny in three species of Habenaria (Orchidaceae, Orchideae) 487

Lamiaceae
Evolution of floral nectary in Lamiaceae 281
Leaf architecture
Effect of some growth regulators on the leaf architecture of *Tagetes erecta* L. 509
Leaf cuticle
Physiology of foliar uptake of inorganic nutrients 457
Leaf dynamics
Adaptive growth strategy of Khasi pine (*Pinus kesiya* Royle ex Gordon) 25
Leaf ontogeny
Ontogeny of palmately compound leaves in angiosperms: 3. *Arisaema* Spp. 475
Leaf venation
Ontogeny of palmately compound leaves in angiosperms: 3. *Arisaema* Spp. 475
Lentinus edodes
Progress of applied mycological research in Taiwan 373

Macro-fungi
Mycological research in Malaysia 363
Macrolichen taxa
Macrolichen taxa of Teloschistaceae from India 227
Mature plant characters
Azide mutagenesis in rice 205
Metabolism
Effect of saline waters on drought affected cluster bean 531
2-methyl 1, 4-butane diol ester
Diol esters-A family of potential plant growth regulators 393
Micro-fungi
Mycological research in Malaysia 363
Micro-fungi of western ghats
The progress and status of mycology in India 379
Monocot leaf
Ontogeny of palmately compound leaves in angiosperms: 3. *Arisaema* Spp. 475
Morphological mutants
Azide mutagenesis in rice 205
Morphology
Evolution of floral nectary in Lamiaceae 281
Morus
Sexual polymorphism in the genus *Morus* L. 315
Mothbean
Tissue culture studies in mothbean—Factors influencing plant regeneration from seedling explants of different cultivars 55
Mycological research
Mycological research in Thailand 343
Mycology
Mycological research in Singapore 335
Mycorrhizal
Mycological research in Malaysia 363

N accumulation
Comparative effects of *Azolla* and blue-green algae in combination with chemical N fertilizer on rice crop 147
Nectar composition
Nectar types in Indian plants 41
New taxa
Certain new taxa belonging to *Aulosira* Kirchner, *Scytonema* Ag. and *Calothrix* Ag.- the blue-green algae from crop fields of Karnataka State, India 401
Nomenclature
Taxonomic status of the *Solanum nigrum* complex found in India 241
Noxious fungi of bed logs
Progress of applied mycological research in Taiwan 373

Oak forests
Structure and function of the Central Himalayan oak forests 159
Orchidaceae
Gametogenesis, integuments initiation and embryogeny in three species of Habenaria (Orchidaceae, Orchideae) 487
Organic elements
Effect of aquatic pollution on the mineral accumulation in water hyacinth 37

Ovules
Hydrolytic enzymes in cotton ovules during early development 49

Palmately compound leaf
Ontogeny of palmately compound leaves in angiosperms: 3. *Arisaema* Spp. 475
Pathogenicity
The influence of *in vitro* substrates on pathogenicity of *Rhizoctonia solani* and responses to fungitoxicants used for disease control 273
Pennisetum
Contribution to the leaf anatomy of the genus *Pennisetum* Rich 113
Pennisetum pedicillatum
Vesicular-arbuscular mycorrhizal fungal sporocarps associated with *Pennisetum pedicillatum* 153
Pericarp
Contribution to the embryology of *Perilla ocimoides* Linn 311
Perilla ocimoides
Contribution to the embryology of *Perilla ocimoides* Linn 311
Pesticides
Clastogenic and turbagenic effects of organophosphorus pesticides on *Allium cepa* root meristems 303
Phenolic constituents
Distribution pattern of phenolic constituents in species of *Bauhinia* Linn. and its taxonomic significance 1
Phenolics
Somatic embryogenesis in angiosperm cell tissue and organ cultures 247
Phenology
Phenology and seasonality in the tropical deciduous forest of Bandipur, South India 121
Phialoconidia
Dwiroopella, a new genus of the Coelomycetes 199
Philippine fungi
Records of Philippine fungi 359
Philippine mycology
Records of Philippine fungi 359
Physiognomic index
Phenology and seasonality in the tropical deciduous forest of Bandipur, South India 121
Plant growth regulators
Diol esters-A family of potential plant growth regulators 393
Plant performance
Effect of saline waters on drought affected cluster bean 531
Plant regeneration
Tissue culture studies in mothbean-Factors influencing plant regeneration from seedling explants of different cultivars 55
Pollen grains
Scanning electron microscopic studies on the pollen of some Clusiaceae 217
Pollen
Circadian periodicities of some airborne pollen at Gulbarga, India 407
Pollution
Ecological studies on the rivers of Andhra Pradesh with special reference to water quality and pollution 495
Polyploidy
Taxonomic status of the *Solanum nigrum* complex found in India 241
Population structure
Population structure of tree species in forests as an indicator of regeneration and future stability 443
Porellaceae
Porella platyphylla (L.) Pfeiff. in India and scanning electron microscope details of spores 17
Porella platyphylla (L.) Pfeiff.
Porella platyphylla (L.) Pfeiff. in India and scanning electron microscope details of spores 17
Pre-conditioning
The influence of *in vitro* substrates on pathogenicity of *Rhizoctonia solani* and responses to fungitoxicants used for disease control 273
1,3-propane diol esters
Diol esters-A family of potential plant growth regulators 393
Protoplasts
Immobilization of cells and protoplasts of *Catharanthus roseus* 413
Pseudomonas
Dinitrogen fixation in wheat and characterization of associative diazotrophs 9

Quercus spp
Structure and function of the Central Himalayan oak forests 159

Ramaria
Genus *Ramaria* in the eastern Himalaya: subgenus *Laeticolora*-II 519
Regeneration
Seed germination of *Quercus leucotrichophora* A. Camus. ex. Bahadur and *Pinus roxburghii* Sarg. on certain single factor environmental gradients 63

Residence time
Population structure of tree species in forests as an indicator of regeneration and future stability 443

Response breadth
Seed germination of *Quercus leucotrichophora* A. Camus. ex. Bahadur and *Pinus roxburghii* Sarg. on certain single factor environmental gradients 63

Rhizoctonia solani
The influence of *in vitro* substrates on pathogenicity of *Rhizoctonia solani* and responses to fungitoxicants used for disease control 273
Rhizoplane
Dinitrogen fixation in wheat and characterization of associative diazotrophs 9
Rhizosphere
Dinitrogen fixation in wheat and characterization of associative diazotrophs 9
Rice
Comparative effects of *Azolla* and blue-green algae in combination with chemical N fertilizer on rice crop 147
Rice bran wax
Diol esters-A family of potential plant growth regulators 393
Rice cultivars
Azide mutagenesis in rice 205
Rivers
Ecological studies on the rivers of Andhra Pradesh with special reference to water quality and pollution 495
Root growth
Effects of air pollutants on the growth and functioning of roots 429

Saline water irrigation
Effect of saline waters on drought affected cluster bean 531
Saplings
Population structure of tree species in forests as an indicator of regeneration and future stability 443
Scanning electron microscope
Scanning electron microscopic studies on the pollen of some Clusiaceae 217
Sclerocystis spp.
Vesicular-arbuscular mycorrhizal fungal sporocarps associated with *Pennisetum pedicillatum* 153
Seed coat
Contribution to the embryology of *Perilla ocimoides* Linn 311
Seed germination
Seed germination of *Quercus leucotrichophora* A. Camus. ex. Bahadur and *Pinus roxburghii* Sarg. on certain single factor environmental gradients 63
Seedling characters
Azide mutagenesis in rice 205
Seedlings
Population structure of tree species in forests as an indicator of regeneration and future stability 443
SEM spores
Porella platyphylla (L.) Pfeiff. in India and scanning electron microscope details of spores 17
Sex expression
Sexual polymorphism in the genus *Morus* L. 315
Sexual polymorphism
Sexual polymorphism in the genus *Morus* L. 315
Silent Valley
The progress and status of mycology in India 379
Solanum americanum Mill
Taxonomic status of the *Solanum nigrum* complex found in India 241
Solanum nigrum L
Taxonomic status of the *Solanum nigrum* complex found in India 241
Solanum villosum Mill
Taxonomic status of the *Solanum nigrum* complex found in India 241
Somatic embryogenesis *sensu stricto*
Somatic embryogenesis in angiosperm cell tissue and organ cultures 247
SO_2 pollution
Growth response of *Vigna sinensis* to SO_2 pollution 419
Sporocarps
Vesicular-arbuscular mycorrhizal fungal sporocarps associated with *Pennisetum pedicillatum* 153
Sporogenesis
Contribution to the embryology of *Perilla ocimoides* Linn 311
Subgenus *Laeticolora*
Genus *Ramaria* in the eastern Himalaya: subgenus *Laeticolora*-II 519
Substrate
Distribution and ecology of myxomycetes in India 289
Succession
Adaptive growth strategy of Khasi pine (*Pinus kesiya* Royle ex Gordon) 25
Sugars
Nectar types in Indian plants 41
Symbiotic associations
Effect of air pollutants on the growth and functioning of roots 429

Tagetes erecta
Effect of some growth regulators on the leaf architecture of *Tagetes erecta* L. 509
Taiwan
Progress of applied mycological research in Taiwan 373
Taxonomy
Taxonomic status of the *Solanum nigrum* complex found in India 241
Genus *Ramaria* in the eastern Himalaya: subgenus *Laeticolora*-II 519

T-DNA
Genetic transformation of plants 79
Teloschistaceae
Macrolichen taxa of Teloschistaceae from India 227
Tepaline nectaries
The floral anatomy of *Gloriosa superba* L. and *Tricyrtis pilosa* Wall. (Liliaceae) 233
Thailand
Mycological research in Thailand 343
Ti plasmid
Genetic transformation of plants 79
Toral nectary
Nectaries in *Bignonia illicium* L.—Ontogeny, structure and functions 135
Transformation
Genetic transformation of plants 79
Translocation
Effects of air pollutants on the growth and functioning of roots 429
Tree architecture
Adaptive growth strategy of Khasi pine (*Pinus kesiya* Royle ex Gordon) 25
Tree growth strategy
Adaptive growth strategy of Khasi pine (*Pinus kesiya* Royle ex Gordon) 25
Trees
Population structure of tree species in forests as an indicator of regeneration and future stability 443
Tricholoma matsutake
Progress of applied mycological research in Taiwan 373
Tricyrtis
The floral anatomy of *Gloriosa superba* L. and *Tricyrtis pilosa* Wall. (Liliaceae) 233
Tropical deciduous forest
Phenology and seasonality in the tropical deciduous forest of Bandipur, South India 121
Tropical mycology
The progress and status of mycology in India 379
Turbagenicity
Clastogenic and turbagenic effects of organophosphorus pesticides on *Allium cepa* root meristems 303

Vasculature
Evolution of floral nectary in Lamiaceae 281
Vigna aconitifolia
Tissue culture studies in mothbean-Factors influencing plant regeneration from seedling explants of different cultivars 55

Water hyacinth
Effect of aquatic pollution on the mineral accumulation in water hyacinth 37
Water quality
Ecological studies on the rivers of Andhra Pradesh with special reference to water quality and pollution 495
Water relations
Effect of saline waters on drought affected cluster bean 531
Wheat
Dinitrogen fixation in wheat and characterization of associative diazotrophs 9

Yield
Growth response of *Vigna sinensis* to SO_2 pollution 419

Zygotic embryogenesis
Somatic embryogenesis in angiosperm cell tissue and organ cultures 247

Proceedings of the Indian Academy of Sciences
(Plant Sciences)

Volume 96, 1986

CONTENTS

Distribution pattern of phenolic constituents in species of *Bauhinia* Linn. and its taxonomic significance
G Nageshwar, S M J Anuradha, M Radhakrishnaiah and L L Narayana 1

Dinitrogen fixation in wheat and characterization of associative diazotrophs
B S Kundu, Renu Batra, Pushpa Kharb and P Tauro 9

Porella platyphylla (L.) Pfeiff. in India and scanning electron microscope details of spores *Farhat Shaheen and S C Srivastava* 17

Adaptive growth strategy of Khasi pine (*Pinus kesiya* Royle ex Gordon)
Ashesh Kumar Das and P S Ramakrishnan 25

Effect of aquatic pollution on the mineral accumulation in water hyacinth
G Satyakala, Sayeeda Begum, Anwarul Hasan and Kaiser Jamil 37

Nectar types in Indian plants
Bir Bahadur, Arthi Chaturvedi and N Rama Swamy 41

Hydrolytic enzymes in cotton ovules during early development
Richa, Amarjit S Basra, Kiranjit K Ahluwalia and C P Malik 49

Tissue culture studies in mothbean—Factors influencing plant regeneration from seedling explants of different cultivars
Ravinder Gill, Susan Eapen and P S Rao 55

Seed germination of *Quercus leucotrichophora* A. Camus. ex. Bahadur and *Pinus roxburghii* Sarg. on certain single factor environmental gradients
P B Rao, P K Ralhan and S P Singh 63

Comparative embryology of *Echinochloa colonum* and *Echinochloa crusgalli* (Poaceae) *R K Bhanwra and S P Choda* 71

Genetic transformation of plants
C R Bhatia, Patricia Viegas, Anjali Bhagwat, Helena Mathews and N K Notani 79

Contribution to the leaf anatomy of the genus *Pennisetum* Rich
M Suryanarayana Raju, V Seshavatharam and S Appa Rao 113

Phenology and seasonality in the tropical deciduous forest of Bandipur, South India *S Narendra Prasad and Malati Hegde* 121

Nectaries in *Bignonia illicium* L.—Ontogeny, structure and functions
R Bagavathi Subramanian and J A Inamdar 135

Embryological investigations in *Centipeda minima* (Asteraceae)
P Swarajya Lakshmi and T Pullaiah 141

Comparative effects of *Azolla* and blue-green algae in combination with chemical N fertilizer on rice crop *A L Singh and P K Singh* 147

Vesicular-arbuscular mycorrhizal fungal sporocarps associated with *Pennisetum pedicillatum* *K Ammani, K Venkateswarlu and A S Rao* 153

Structure and function of the Central Himalayan oak forests
S P Singh and J S Singh 159

Dwiroopa, a new genus of the Coelomycetes
C V Subramanian and J Muthumary 191

Dwiroopella, a new genus of the Coelomycetes
C V Subramanian and J Muthumary 199

Azide mutagenesis in rice
D Rama Mohana Rao and T V V Seetharami Reddi 205

Scanning electron microscopic studies on the pollen of some Clusiaceae
Y N Seetharam and J K Maheshwari 217

Macrolichen taxa of Teloschistaceae from India *D D Awasthi* 227

The floral anatomy of *Gloriosa superba* L. and *Tricyrtis pilosa* Wall. (Liliaceae)
N P Vaikos and R M Pai 233

Taxonomic status of the *Solanum nigrum* complex found in India
A Ganapathi and G R Rao 241

Somatic embryogenesis in angiosperm cell tissue and organ cultures
N S Rangaswamy 247

The influence of *in vitro* substrates on pathogenicity of *Rhizoctonia solani* and responses to fungitoxicants used for disease control
Samiran Gangopadhyay and Rajendra K Grover 273

Evolution of floral nectary in Lamiaceae *D Santha Kumari* 281

Distribution and ecology of myxomycetes in India
R Venkataramani and Indira Kalyanasundaram 289

Clastogenic and turbagenic effects of organophosphorus pesticides on *Allium cepa* root meristems *B V Rao, C B S R Sharma and B G S Rao* 303

Contribution to the embryology of *Perilla ocimoides* Linn. *N K Dwivedi* 311

Sexual polymorphism in the genus *Morus* L.
M S Jolly, S B Dandin, S Ravindran and R Kumar 315

Phytochemical evaluation of *Cassia obtusifolia* L. and *Cassia tora* L.
S K Upadhyaya and V Singh 321

Anatomical studies in the flower of some genera in the Geraniales
Shobhana Radhakrishnan and V D Tilak 327

UNESCO Workshop on Progress on Applied Mycological Research in the Tropics, University of Singapore, Singapore, May 1985

Foreword 333

Mycological research in Singapore — *G Lim and T K Tan* 335

Mycological research in Thailand — *Poonpilai Suwanarit* 343

A panoramic review of the present state of Indonesian mycology — *Mien A Rifai* 357

Records of Philippine fungi — *Tricita H Quimio* 359

Mycological research in Malaysia — *Norani Ahmad* 363

Progress of applied mycological research in Taiwan — *Zuei-Ching Chen* 373

Floristic studies and distribution of fungi in Sri Lanka — *R L C Wijesundera* 375

The progress and status of mycology in India — *C V Subramanian* 379

Diol esters—A family of potential plant growth regulators — *S N K Chaudhari, V M Nair, J B Lamture, S Venkataramani, S Bhaskaran and K K G Menon* 393

Certain new taxa belonging to *Aulosira* Kirchner, *Scytonema* Ag. and *Calothrix* Ag.—the blue-green algae from crop fields of Karnataka State, India — *U D Bongale* 401

Circadian periodicities of some airborne pollen at Gulbarga, India — *M Mari Bhat and A H Rajasab* 407

Immobilization of cells and protoplasts of *Catharanthus roseus* — *V A Bapat, P S Rao and M R Heble* 413

Growth response of *Vigna sinensis* to SO_2 pollution — *Naresh Kumar and V Singh* 419

Effects of air pollutants on the growth and functioning of roots — *M S Kasana and T A Mansfield* 429

Population structure of tree species in forests as an indicator of regeneration and future stability — *S P Singh, J C Tewari, S Yadav and P K Ralhan* 443

Physiology of foliar uptake of inorganic nutrients — *Seshadri Kannan* 457

Chlorophyll content in different plant species of Nagamalai hills and its significance on biomass production — *Kailash Paliwal, T K Sivaraj, R Natarajan and M Peter Marian* 471

Ontogeny of palmately compound leaves in angiosperms: 3. *Arisaema* Spp. — *K Periasamy and E A Muruganathan* 475

Gametogenesis, integuments initiation and embryogeny in three species of Habenaria (Orchidaceae, Orchideae) — *Sarvesh Kumar Sood* 487

Ecological studies on the rivers of Andhra Pradesh with special reference to water quality and pollution *V Venkateswarlu* 495

Effect of some growth regulators on the leaf architecture of *Tagetes erecta* L. *Vidhu and Y S Murty* 509

Genus *Ramaria* in the eastern Himalaya: subgenus *Laeticolora*-II *R M Sharda and K S Thind* 519

Effect of saline waters on drought affected cluster bean *B K Garg, S P Vyas, S Kathju and A N Lahiri* 531
